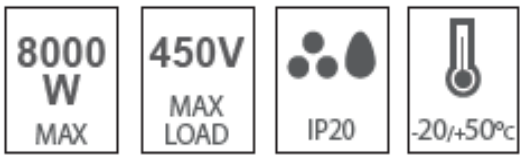
ELECTRICAL EQUIPMENT

PROTEX 8000W MAX.W

CODE: 7200290



Area of application

Plastic waterproof junction box for quick and safe electrical connection

Product Advantages

PROTEX is a durable plastic waterproof junction box, designed to provide reliable protection for electrical connections in demanding environments. With a protection class of IP68, it offers effective resistance against dust and water jets, making it suitable for both indoor and outdoor installations. The PROTEX range is available in three versions: 1-1, 1-3, & 1-4, allowing flexibility for different wiring and connection requirements. Each unit is supplied in a single-piece package (1 pc per bag), making it ideal for individual installations and maintenance use. PROTEX junction boxes ensure secure and organized wiring while protecting connections from environmental factors.
